P indicates that it is preliminary, and that permanent corrective action will appear in a future Local Notice to Mariners.

The letter M immediately following the chart number indicates that the correction should be applied to the metric side of the chart only.

The letter N preceding the current Local Notice to Mariners number indicates that the affected chart is on Limited Distribution and is normally only for use by U.S.

Navy, government-owned or government chartered vessels.

Courses and bearings are given in degrees clockwise from 000° T. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles.

OAHU – KANEOHE BAY – MARINE CORPS BASE HAWAII – ULUPAU CRATER WEAPONS RANGE SCHEDULE

Whenever tactical weapons firing is scheduled and in progress during daylight hours, a single large red rectangular warning flag will be flown at the two separate locations on the shore. Whenever any weapons firing is scheduled and in progress during hours of darkness, flashing red warning beacons will be displayed on the shore at Ulupau Crater. Boaters will have complete access to the danger zone whenever there is no weapons firing scheduled, which will be indicated by the absence of any warning flags, pennants, or beacons displayed ashore.

The danger zone is not considered safe for boaters whenever hazardous weapons' firing is in progress. Boaters shall expeditiously vacate the danger zone at best speed and by the most direct route. Passage of vessels through the danger zone when hazardous weapons firing is in progress will be permitted, but boaters shall proceed directly through the area at best speed. Whenever a boater disregards the publicized warning signals that hazardous weapons firing is scheduled, the boater will be personally requested to expeditiously vacate the danger zone by MCAS Kaneohe Bay military personnel utilizing a bull-horn from either a Marine helicopter or Navy crash boat.
